

BUSINESS ASSURANCE

MODERN SAFETY MANAGEMENT 2

Advanced Safety Management Course

Modern Safety Management 2: Building Risk Competence for your organisation.

The objective of DNV GL - Business Assurance's MSM2 is to provide you with the necessary tools and techniques for the integration of safety and loss control into your other management systems, and not separating them as a unique area of concern, in turn, building risk competence.

Modern Safety Management 2 (MSM2)

Modern Safety Management is the most widely attended course of its kind in the world and DNV GL's best selling course worldwide. MSM2 is based on proven principles of safety management and provides participants with the fundamental concepts and techniques for a practical, proactive approach to managing safety and controlling losses.

Who should attend

Modern Safety Management is recommended for safety managers, risk managers, supervisors and other operating managers who have management system responsibilities.

- Front line Supervisors
- Middle Managers
- HSEQ Managers/Coordinators
- Senior Managers

Modern Safety Management 2: Building Risk Competence

MSM2 Course
